USBORNE PUBLISHING

Usborne is one of the world's leading specialist children's book publishers: an independent, family business which creates engaging, innovative, accessible books for children of all ages.

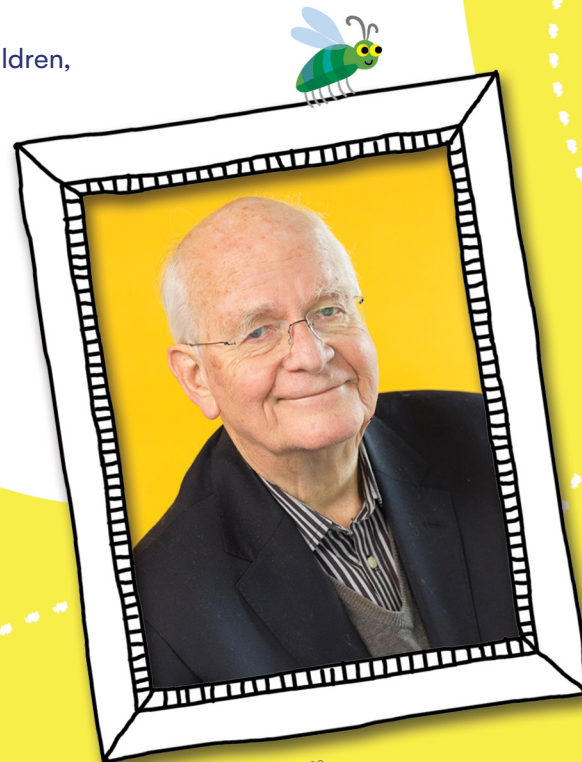

Usborne books are written to appeal directly to children, and are there for every age and stage from newborn baby to young adult. Children can grow with Usborne books.

Our motto is 'do it better'. We always do our best to create books for children which contain accurate, reliable information, presented in an attractive and appealing way and produced in an ethical manner to the highest international standards.

For distinctive, enriching books for children, look for the Usborne balloon.

The acronym STEM (Science, Technology, Engineering and Maths) was first used in the USA about 20 years ago, when it was recognized that jobs requiring STEM subjects were growing faster than non-STEM jobs and that there was a skills gap in these subjects.

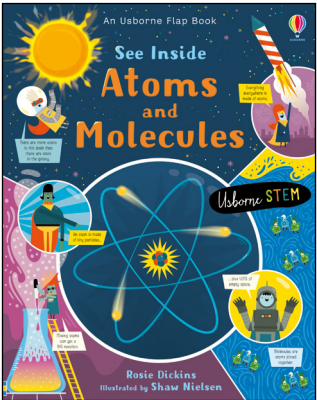

STEM in the classroom is about using science and maths to design, test and build solutions to problems in our technological world. Engineering is the practical application of these skills.
